

# Maine's Updated Tobacco and Vaping Prevention Law

## Understanding the Impact on Your School

---

Maine schools have seen a significant increase in the number of students using electronic smoking devices over the past year. These products are also known as electronic nicotine delivery systems (ENDS), including e-cigarettes and other products (including "vape pens").

### LD152

An Act to Prohibit the Possession and Use of Electronic Smoking Devices on School Grounds

This law is intended to support school personnel to support their efforts to create and enforce tobacco-free school settings.

---

Prohibits tobacco use and possession of tobacco products or accessories

Applies to all students, staff, parents and community members

Includes all times in the buildings or on the grounds of any public school, on a school bus and at any school-sponsored event

LD152 Effective Date: September 19th 2019

# Maine's Updated Tobacco and Vaping Prevention Law

## Updating Maine's Existing Tobacco-Free School Law

LD152 modernizes Maine's current law restricting tobacco use at public elementary and secondary schools (22 MRSA § 1578-B).

The updated law:

- Prohibits tobacco use by anyone on school buses and at any school-sponsored event (in addition to school buildings and grounds).
- Prohibits possession of tobacco products by anyone. This includes electronic smoking devices and accessories, on school grounds, in buildings, on a school bus or at any school-sponsored event by anyone at any time.

This law does not reinstate the citations for youth possession of tobacco products that was removed under Maine's Tobacco 21 Law in 2019 (An Act to Reduce Youth Access to Tobacco Products (Section 5-A)).

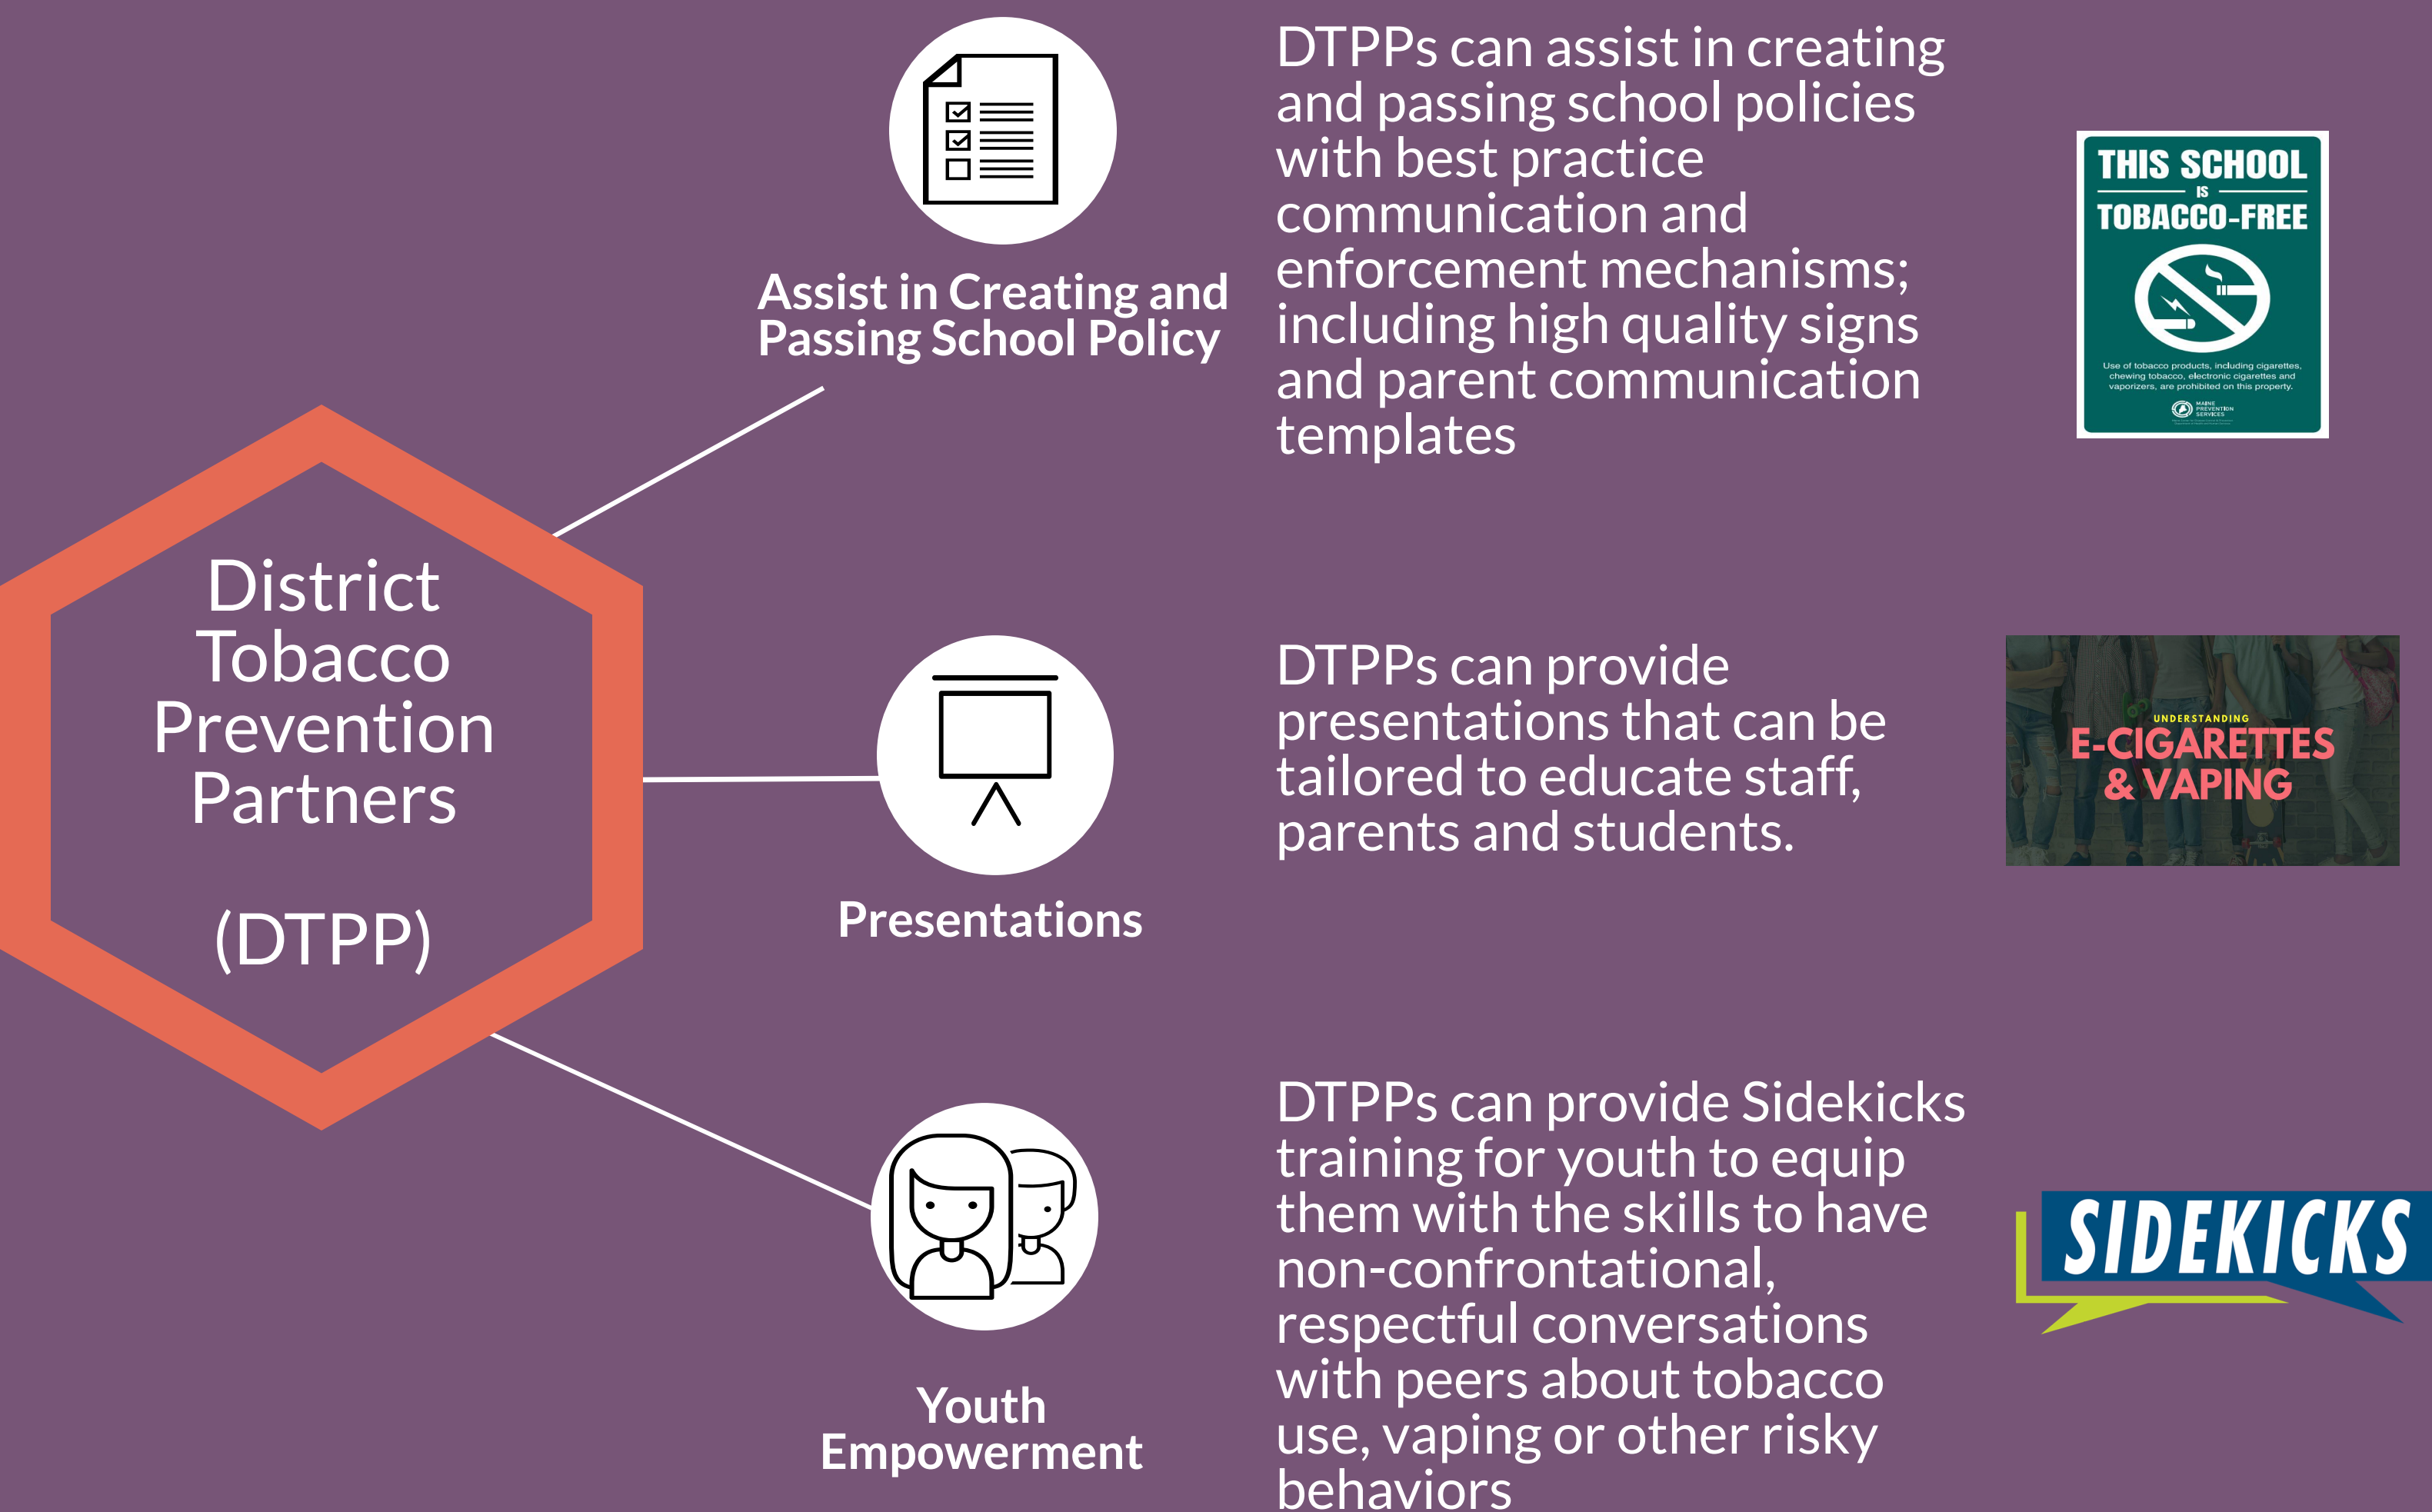

- Expands the definition of tobacco products to include electronic smoking devices.

### Maine Tobacco Products

 <b>Hookah</b>	 <b>Electronic Cigarettes*</b>	 <b>Dissolvable</b>
