THIRDHAND SMOKE

is the tobacco smoke residue that remains after a tobacco product has been out out.

After smoke clears, **toxins linger**, which may leave an odor.

Thirdhand smoke **contains chemicals** known to cause **cancer**.

Smoke **residue sticks** to clothing, hair, and skin.

Lingering toxins resist normal household cleaning.

Thirdhand smoke **builds up** over time on carpets, walls, furniture, plastic toys, and stuffed animals.

Infants and children are **more exposed** to thirdhand smoke because they crawl on the floor and put things in their mouths.

IF YOU SMOKE: Protect your family, friends, and coworkers, wash your hands and hair, and change your clothes before coming in contact with others, especially infants and children.
